Portfolio: my-portfolio-vert-iota-59.vercel.app • **GitHub:** github.com/ranjangupta

Location: Bahadurgarh, Haryana, India, PIN -124507

Professional Summary

- Full-Stack Developer with **2+ years' experience** in designing and implementing web applications using **React.js**, **Next.js**, **Node.js**, and **MongoDB**. Strong emphasis on clean, maintainable code and modern UI/UX design.
- Proven track record of **owning projects end-to-end**, transforming client requirements into responsive, user-centric solutions that drive measurable. Passionate about collaborative problem-solving and Agile methodologies
- I have a solid track record of blending digital marketing and IT operations to turn real-world business needs into responsive, user-focused solutions that actually move the needle. I thrive in collaborative environments, love breaking down complex problems, and work best in fast, Agile teams where ideas turn into impact quickly

Technical Skills

- **Frontend:** JavaScript, React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Framer Motion, GSAP
- **Backend:** Node.js, Express.js, RESTful APIs, Supabase (Backend-as-a-Service)
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Tools & Design:** Git, GitHub, Figma, Adobe Photoshop, Responsive Web Design (HTML5/CSS3), UI/UX Prototyping

Professional Experience

Freelance Full-Stack Developer (Self-Employed) – October 2024 – Present

- Delivered multiple client web applications using **React.js** and **Next.js**, significantly enhancing UI/UX and user engagement.
- Currently developing a full-stack e-commerce platform with admin analytics (React, Redux, Tailwind CSS, Node.js, Express, MongoDB) to streamline inventory, cart, and payment features.
- Ensured robust backend support and security for critical healthcare applications, streamlining IT operations and system monitoring.

Technologies: React.js, Next.js, Redux, Tailwind CSS, Node.js, Express.js, MongoDB, Git

Backend Developer – Grow Pvt. Ltd. – Jan 2024–Sep 2024

- Managed full-stack development for internal web applications supporting business processes, using **Node.js**, **Express.js**, and **MongoDB**, which improved system efficiency by **40%**.
- Led the end-to-end project lifecycle: requirement analysis, RESTful API development, front-end integration, testing, and deployment.

- Introducing best practices for version control and code reviews

Technologies: Node.js, Express.js, JavaScript, MongoDB, Git

Web & Databases Management – digiDZN (digiCart India Pvt. Ltd.) – Jan 2023–Dec 2023

- Designed and implemented responsive web interfaces (HTML5, CSS3, JavaScript) for client projects, boosting user engagement by **45%** through enhanced UI design.
- Managed and optimized the Freshdesk CRM database (10,000+ records), improving data workflows and **reducing ticket resolution time by 25%**.
- Collaborated on SEO strategies for product pages, contributing to a **50% increase** in organic search rankings (cross-functional role).

Technologies: HTML5, CSS3, JavaScript, Freshdesk CRM, Git

Web Developer Intern – Webpandits & Smarden (30 Days Technologies Pvt. Ltd.) – Nov 2021–Nov 2022

- Assisted in the development and maintenance of client websites.
- Created digital marketing graphics and UI elements for social campaigns
- Analyzed website performance metrics and prepared reports to inform improvements in design and content strategy.

Technologies: HTML5, CSS3, JavaScript, SEO Tools
